LOCAL 'CHANGE CONTINUES GOOD

Week Closes With the Best Trading of the Past Month.

SALT LAKE, Oct. 22.—Just 22 stocks were traded in on the local stock market this morning, which is the largest number that has been transacted in during one session of the local market in several weeks. There was considerable strength added to the market today, and buying orders were much more plentiful. Conditions were right for a good market and there were things to indicate that much better trading may be expected in the future.

The total number of stocks traded in was 36,890, for which \$9,223 was paid out.

Trade during the week improved greatly over last week. The total number of shares that changed hands was 308,781, for which the amount of \$75,844.54 was paid.

Colorado was at 33 cents today and 1,000 shares were disposed of at the price. Grand Central sold at 97 cents, which is the lowest sale in this security that has been witnessed in years. Iron Blossom was unchanged at 75 cents.

Prince Consolidated has jumped into the limelight again and was one of the most active stocks today. It sold from 83 to 85 cents.

Nevada Hills and Sloux Consolidated were weaker today after the little flurry of yesterday. The Sloux stock dropped 2 1/2 cents and Nevada Hills went to \$2.42 1/2.

Trading on the curb market was slow this morning on account of the lively interest taken in the listed securities. Trading on the curb this morning amounted to 1,000 shares of Opex at 19 cents, and 2,000 at 19 1/2 cents.

IRREGULAR TONE ON WALL STREET

Uncertain Movement in Stocks Due to the Doubts Over Money Market.

New York, Oct. 22.—The uncertain and irregular movement of prices of stocks today reflected a feeling of hesitation in the speculation, which is due mainly to the doubts over the money outlook. Another shipment of \$5,375,000 of gold to Egypt, which was withdrawn from the bank of England for that purpose, showed the formidable proportions of the requirements upon that institution. With the private discount rate in London falling above the Berlin private rate, the likelihood of another advance in the official discount rate of the Reich bank from the present five per cent level is canvassed in international money markets. With the Paris rate still ruling below three per cent, a movement of gold from Paris to London seems a likely recourse.

The New York stock exchange seemed to throw off the depression of the first hour, which founded on the dubious outlook about the working of the

international steel rail pool. The assertion that increased percentage of the world's tonnage had been allotted lately to the United States. United States producers gave increased credence to the rumors of accumulation of United States steel shares for account of a foreign syndicate.

Bonds were steady. Total sales \$1,253,000.

Chicago Market.

Chicago, Oct. 22.—One of the important items of the wheat market from a world standpoint was weakened today. The potato crop of Germany, an immense source of food supply, which the trade was led to believe had suffered disaster, was shown by official reports to have a condition much higher than expected—72 per cent, against 80 a year ago. With prospects also of a large increase in the amount of wheat available in this country, prices dropped all day and closed at the lowest figures of the session, a net decline of 1 1/2 to 1 3/4.

Small demand for cash wheat was a depressing factor that confronted speculators. December ranged from 92 5/8 to 93 7/8, closing weak, 1 1/8-1 1/4 down at 92 5/8-3/4.

December sold at 46 1/2 to 45 1/2 and finished steady, 1 1/4 off at 45 1/4-3/8.

Oats for December fluctuated between 30 1/4 and 30 1/2-5/8, with last sales off at 1-2.

Provisions received a downward push from the grain list. Pork closed unchanged to 12 1/2 cents lower; lard 1 1/2 off to 12 1/2 and ribs 2 1/2-3/4 to 5 cents higher to a nickel decline.
